

As of February 25, 2013, FEMA has released the Preliminary copies of the Flood Insurance Rate Map (FIRM) and Flood Insurance Study (FIS) report for Jefferson County. The FIS study report for Jefferson County describes the flood hazard information updates made to the FIRM and FIS report and the source of information used in making the updates.

This is the Town residents chance to review these preliminary copies. There will be formal community coordination meetings held to discuss the revised flood hazard information, ordinance adoption, and other frequently asked questions and concerns.

The meeting dates can be found on the County's website regarding the [FEMA Maps and Study](#)

The Town will post pdf files of the maps for the Town of Lake Mills area on the Town's website, a notification will go out when this is complete. FEMA has all of the maps available but are not labeled in a way that makes it easy for Town residents or officials to locate the maps related to our area. The posting on the Town's website will clarify the map's areas making it easier to locate the area you would like to review.

Please contact Jefferson County Zoning for specific questions regarding the FEMA maps. (920)674-7130.
