Re: City of Lake Mills–Shorewood Hills Phase III Development

Dear Kory,

We have reviewed the above-referenced project drawings dated June 2016. The plans reviewed were marked “Preliminary Not for Construction” but you have assured us any remaining changes will not affect the sanitary sewer design. It is also our understanding that all project specifications are shown on the drawings and that the sanitary sewer will be installed according to City of Lake Mills specifications.

As consulting Engineer to the City of Lake Mills and on behalf of the City of Lake Mills, we are submitting this letter as an Owner-approval letter for the submittal of the above-referenced drawings to the Wisconsin Department of Natural Resources for sewer main extension permits.

This approval does not confirm the start of construction of the facilities required for the above-referenced project. The following items must be completed before the start of construction:

1. Completed Developer Agreement
2. Financial guarantee provided to the City by Developer
3. Preconstruction Conference

If you have any questions, please call Strand Associates, Inc.®

Sincerely,

STRAND ASSOCIATES, INC.®
